AIM Federation: Small schools, big opportunities

Wednesday 23rd June 2026

Dear Parents and Carers,

Re: High Temperatures

As you will be aware, very high temperatures are forecast for the remainder of this week. We are continuing to monitor the situation closely and have put a range of measures in place to help keep children and staff as comfortable as possible, including increased access to drinking water, regular opportunities for shade and reduced physical activity during the hottest parts of the day.

Due to the forecasted temperatures tomorrow, we recognise that some families may wish to collect their children earlier than usual. Should you choose to do so, children may be collected from their usual collection point between **1.15pm and 1.25pm**. After **1.25pm**, any early collections should be made from the **school office**. Please note that this is entirely optional, and the school will remain open and operating as normal throughout the day.

While every effort is being made to keep learning environments cool, temperatures in some classrooms increase during the day, peaking in the afternoon. Allowing families the flexibility to collect children early provides an additional option for those who feel it is appropriate for their child.

Children should continue to bring the following to school:

- A named water bottle.
- A sun hat.
- Sunscreen applied before arriving at school (and a named bottle of sunscreen if they are able to reapply independently).

Thank you for your continued support and understanding as we manage these unusually high temperatures.

Kind regards,

Claire Pateman
Head of Schools MIJS
